As mentioned this morning we met with WNC Pressure Washing Thursday and they cleaned a sample spot on our roof (#274) over the master bath addition. I think it is a good example of what we can expect. The attached picture does not show the contrast between before and after as well in person.

I did tell them that we would present their pricing to the homeowners and it would be up to each homeowner to decide whether or not to have their roof washed. However, I don't think they fully understood because it looks like they want us to accept it in full, 30 houses + the pavilion. We'll have to get back to them to make sure the pricing is for each individual homeowner and not as a group package. I do not think we should "accept" this proposal as currently written.

Thanks,

Bob

Thanks Bob... looks good! I'll post this on our web page and we can discuss at the meeting.
