

Weebly Pricing & Plans: The Basics

Weebly has 4 premium plans: Starter, Pro, Business, and Performance. They range from \$8 to \$38 per month. On top of that, there's also a permanently free plan, which allows users to build websites that run on a Weebly subdomain (e.g. sitename.weebly.com). The cheapest ad-free pricing tier that includes a domain for 1 year is Weebly Starter (\$8)/month.

How to Choose the Best Weebly Hosting and Plan

The main difference between the Free Plan and Starter Plan is that Starter includes a free domain name for 1 year and you can also use a domain from a different registrar.

Pro Plan: It's one of the most popular Weebly plans. Well, compared to the Starter Plan you will have a few nice extra features. A search function for your website, the HD video and audio players give your website a more professional touch. In addition, there are not only password-protected areas that you can set up to share exclusive content but it's even possible to add up to 100 members to your site through the membership feature.

The Business Plan could be the right choice for your up and coming e-commerce empire. It allows selling physical and digital goods. In addition, you can also hand out coupon codes to your visitors.

As per Performance Plan, it's the best one for any eCommerce experience. It empowers your online store with real-time shipping rates and gift cards.

In short, you'll only need the Business Plan or higher if your goal is to open an e-commerce store or a membership site for more than 100 members. For a freelance or small business site, you'll be fine with either the Pro or Starter Plan.

Domain Names & Email Accounts

You can either register your domain name through Weebly (which is free for the first year and renews at \$19.95 per year) or put it together yourself through an external domain registrar that includes email hosting (e.g. **BlueHost**).
