Date of Est.	Description of Service	Qty	Each	Amount
Apr 12, 2023	<b>Roof Cleaning (METAL) - With Oxidation</b> : Wash metal roof to remove oxidation, mold and mildew.	30	437.00	13,110.00
	Getting your roof cleaned will add years of life to your metal roof. Our soft wash roof cleaning service can be a better alternative to replacing your roof. Even if you have a multi-year warranty on your roof, the manufacturer still recommends using a roof soft cleaning service. We will remove those black stains and moss from your roof by treating the surface with a cleaning solution, as opposed to blasting it with a pressure washer.			
	As we all know, replacing or repairing your roof is extremely expensive. By cleaning your roof, you will noticeably see that the natural color of your roof will come back and all the organic growth will be eliminated.			
	<ul> <li>We apply a proprietary cleaning mix to the roof</li> <li>The cleaning solution is 100% biodegradable &amp; phosphate free</li> <li>We use ZERO high pressure. High pressure will cause damage to your roof</li> <li>We kill the underlying root system of: Algae, Moss, Mildew &amp; lichen</li> <li>We use proper watering techniques followed by a neutralizer to keep your property &amp; plants safe</li> </ul>			
	See what set us above and beyond your average roof cleaning company			

• Roof Sterilization -will kill the underlying root system of
